Hi Amber,

Thanks for the note. The version in the messages below incorporated your last round of edits and was sent to the reps from the various OPP divisions for comment.

I've attached the latest version so you can see the comments that have come in so far, but I don't recommend that you add comments to this stand-alone document. I expect that we will be getting more comments in the SharePoint file over the next couple of days.

If you want to add comments to the file on SharePoint after the other divisions finish commenting (and your internet connection cooperates), that could be helpful (and would keep all of the comments in one place for version control). Or, another approach could be that we share a new (clean) version of the briefing paper with you after incorporating the division rep's comments. Quinn and I plan to review and address the comments from the various divisions next week.

Let me know if you have a preference.

Thanks,  
Sue

Susan – is this a different version than what I commented on previously? I'm having trouble maintain internet connect when using the VPN. As a result, I cannot download documents from sharepoint right now. Could you send me the document to review? Sorry to ask

We will send over the notes that we took today in case there was anything we missed. Please let me or Sue Bartow (<bartow.susan@epa.gov>) if you have any questions.

Best,  
Quinn
